Venue

PCRA, New Delhi

Petroleum Conservation Research Association
(Ministry of Petroleum & Natural Gas)
Sanrakshan Bhawan, 10 ,Bhikaji Cama Place
New Delhi- 110066
Website : www.pcra.org

Introduction:

As per the Energy Conservation Act 2001, it is mandatory for all the designated energy consumers to get energy audit conducted by an accredited energy auditor and to appoint energy manager. Bureau of Energy Efficiency (BEE), Ministry of Power, Government of India has specified that the essential qualification for a certified energy manager and certified energy auditor would be passing of a National Certification Examination. The Bureau of Energy Efficiency is conducting the 5th National Certification Examination for Energy Managers and Energy Auditors on 17-18th November 2007. Many candidates appearing for the examination do not get enough time for exam preparation on account of their daily busy schedules. Though they may be capable of solving the problems in the industry regarding energy use, achieving success in Examination requires lots of theoretical study along with clear understanding of practical applications.

This training course is planned in such a way that it will cover the complete syllabus of the examination systematically in a period of 5 Days. At the end of the training, the prospective candidate is expected to acquire requisite knowledge and skills for passing the examination.

About PCRA:

Petroleum Conservation Research Association is a registered society under Ministry of Petroleum and Natural Gas. PCRA was established in 1978 for conservation of petroleum products in India. PCRA undertakes a large number of Activities in different sectors (Transport, Industrial, Domestic, Agriculture and commercial) for conservation of petroleum products and enhancing energy efficiency. PCRA has conducted about 25000 Energy Audits in Small / Medium and large scale industries in various sectors like Steel, textile, Dairy, petroleum, Engineering, process, chemical, Hand tool, pharmaceutical, food processing, paper industries and commercial buildings. **PCRA is also accredited from BEE as an Energy Auditing Organization.**

An Integrated Energy Solution Provider
